## A Private Income of \$100 a month for Life ... from age 55!

**IF IN GOOD HEALTH** —\$100 A MONTH.  
**IF IN ILL HEALTH** —\$100 A MONTH.  
**IN CASE OF DEATH** —\$10,000 CASH.

Just picture it. At 55, while still well and vigorous, to come into a private income (over and above other revenues), guaranteed for the rest of your life, of \$100 a month. You simply make yearly or half-yearly deposits of an agreed amount for a specified period, at the end of which you begin to receive a monthly income for life.

That's only part of the story. If, meanwhile, through sickness or accident, you should become totally disabled, you cease paying premiums and receive \$100 a month during such disability. At age 55, the regular income of \$100 a month, unimpaired, comes into effect.

Look how your family is protected. Should you die at any time before receiving \$5, your family receives \$10,000.

This is but one example of a variety of plans which the Sun Life of Canada has for every age, condition, and amount. Fill in and forward this form (which oblige you to no obligation) and exact figures suited to your individual need will be sent you.

## THE CHURCHILL

**CONVENTION**  
 Probably no public undertaking in Canada has been the cause of so much controversy, debate, and discussion as the building of the Hudson Bay Railway from the Pas to Churchill, on Hudson's Bay.

The history of the Hudson Bay Railway dates back more than fifty years. It was discussed prior to the agreement resulting in Manitoba becoming a province, and while it may not have been a province in the agreement, nevertheless it is recorded that the question was brought up at the preliminary negotiations, and those acting on behalf of the province considered that the residents of the west would expect the Dominion to construct a railway to this being the chief and natural outlet for the products of the western plains.

Construction work began in 1910. Work on the railway, and the terminals at Nelson, originally chosen as the prairie airport, continued until late in 1915, and was then suspended. A few years ago work was resumed according to changed plans, with Churchill chosen as the most suitable harbor in preference to Nelson.

The rails are now laid all the way from The Pas to Churchill. A staff of engineers and workmen is busily engaged in building the harbor works and grain handling facilities at the northern terminal. In a year or so the scheme will be completed, and the great experiment will be ready for the test.

Some doubt the feasibility of the scheme, claiming ice conditions in the bay and the straits will hinder shipping to such an extent that the cost of shipping grain by this route will be greater than sending it down the great lakes via Montreal.

Supporters of the scheme claim the straits are navigable five months in the year, and point to the shortening of the haul from the prairies to Liverpool resulting in a considerable saving in handling charges and freight. Montreal and Churchill are practically the same distance from Liverpool, approximately 2300 miles.

Churchill is a strategic point in the western world, and its location is a Montreal. The saving in freight will thus be considerable if the Churchill route proves practical.

Now that the Churchill route is nearing completion it is being watched with keen interest. Should it prove a commercial success it may be a very important factor in meeting the competition of Russian wheat on the European markets.

## A TIME OF RE-ADJUSTMENT

During the period of financial and economic reconstruction which has followed the war, it will be found necessary to make many changes, alterations, and re-adjustments in the scheme of things if we are to progress. We must learn to think and act in terms of things as they are today, not as they were three or four years ago. Old standards of measurement that cannot be adapted to the changing time will have to be thrown in the discard. Methods of management that have proved unsatisfactory must be remodelled to suit the present economic situation.

One change in policy which seems most necessary is that concerning the Canadian Pacific Railway Company's irrigation block. The farmers on irrigated land are making an appeal for readjustment of land values on farms. They can see no way out of their financial dilemma under the present terms of their land contract with the company. They have a formidable array of facts and figures with which to back up their statements, and they are now preparing to present their case to the company.

The C. P. R. is a progressive and far-seeing organization. It has always followed a policy of building, developing, and progressing. Its history is linked with the history of Canada. It has played a most important part in the development of western Canada, and has paved the way for the growth of agriculture on the prairies.

The question which now vitally concerns the farmers on C. P. R. irrigated land is, "Will the company continue with its present policy respecting the irrigation block, or will it adopt measures of relief that will enable the farmer to carry on?"

Judging by the past history of the company, its aims of progress and development, the sound business principles upon which its success is built, upon which may reasonably expect assistance that will help him out of his present predicament, and that will eventually mean success and profit for both himself and the company.

## Makepeace News

**MAKEPEACE, Jan. 5.**—Well, folks, as the holiday rush is over we will all have to get down to business and start the new year right. The local backsliders have been going strong for seven nights a week and have been saving lots for seven days a week for the last two weeks, but believe those days are gone forever—that is, till next Christmas. How about it, boys?

Mr. Larson, of Redcliff, brother of Miss Frances Larson, has taken over the duties as teacher at Makepeace school. Mr. and Mrs. Lars Jensen, on their position as teacher, deciding to teach only one instead of thirty-three. She became the bride of Mr. Carlyle Sutton, of Mills, on Dec. 29. We all extend our heartfelt congratulations to them, and wish them every happiness in their new life.

Mr. and Mrs. W. R. Weir, and family returned home last Saturday after spending the holidays with Mrs. Weir's parents at Empress.

Mr. and Mrs. Frank Houshorne, and family spent New Year's day at the home of Mr. Nelson.

Mr. and Mrs. Rudolph, of Bassano, spent New Year's eve at the home of A. K. Hanson.

Friends of Mr. and Mrs. Holman and Mr. and Mrs. Frank Houshorne, and extended their hearty sympathy to them.

Mr. and Mrs. Chas. Rodbourne, William, Arthur and Mary, and Mrs. E. W. Campbell and Ver, spent New Year's day with Mrs. Clark and family.

Mr. and Mrs. Herman Jorgensen and family were new year visitors at the home of Mr. and Mrs. E. Brooks.

The dance in the Croft school hall on Thursday was well attended, and it report a very enjoyable time.

Mr. and Mrs. Deschamps and son, Mr. and Mrs. Chas. Rodbourne, J. L. Walker, Gordon and Donald, Joan and Phyllis Plummer, and Harry Munter spent New Year's day at the home of Mrs. Hoffboerger.

Mr. and Mrs. F. Pragnell and family, of Bassano, Mrs. Ayle, of Innes, and Mrs. E. Brooks, Jr., and Mrs. E. W. Campbell spent Sunday last at the home of Mr. and Mrs. C. A. Guyatt.

Mr. and Mrs. F. Fairbairn, Mr. and Mrs. A. Hallett and Blake Robinson, spent New Year's with Mr. and Mrs. McNeill.

Mr. and Mrs. P. Graham and family were visitors at the home of Mr. and Mrs. W. Weeks on New Year's day.

William Graham, son of Mr. and Mrs. B. F. Graham, has been a student for the past three years, is the host for the holidays.

Thomas Rodbourne returned to his last Sunday, after spending the holidays here with his parents, Mr. and Mrs. Chas. Rodbourne.

Miss Eleanor Hoffboerger returned to Calgary last Sunday after spending the holidays at her home here.

Miss Charlotte Spicer returned Sunday after spending the holidays at her home in Duchesne.

**Duchess News**  
 DUCHESNE, Jan. 5.—P. Bolton, high school teacher, returned on Sunday from a holiday spent in Glencliff and High River.

The Ladies' Aid of the United Church will meet with Mrs. Elynn on Saturday afternoon, Jan. 10. All ladies of the district are invited.

Mr. Wiborg, formerly of the Royal Bank staff here, and now of Spirit River, was calling on old friends Tuesday.

Miss Ruth Hole is spending a few days with her sister, Mrs. Anna Hole, at Husar.

Mr. and Mrs. M. Host returned Sunday night from Medicine Hat where they spent the New Year's holidays. Mr. Host went on to Jasper Monday, where he is working.

Jay Russell has taken over the Duchesne hotel.

Mrs. P. Anderson, of Calgary, spent a few days last week in town looking after business interests.

Mr. Hole spent the week-end in Calgary.

J. Anderson, of Calgary, was a business visitor in town last week.

Mr. Gilbey spent several days in Calgary last week.

Mrs. Hollands, who has been spending several months at the Dowling home, left on Tuesday for Victoria on an extended visit.

Mr. Hattie has returned from Maple Creek, where he spent the holidays.

Fred Mahan returned from Calgary Tuesday, where he visited friends.

Miss Margaret Woodward, of the Holy Cross Hospital, Calgary, spent New Year's with home folks.

cess and profit for both himself and the company.

## CANCER IN WOMEN

The question is sometimes asked as to whether more harm than good results from articles on cancer. We are not at all sure, for the cancer-stricken people are needlessly worried, and that a number of them go to their doctors in fear of cancer, who heavy heart ease for their fears. We, however, can place against this statement the number who, because of what they have learned, have gone for treatment in the early stages of the disease, and who have been cured.

With our present knowledge, it is possible in a great extent, to reduce the number of deaths from cancer, providing cases come under treatment early. It is obviously impossible, however, for physicians to go out and look for such cases; the patient must come to the physician.

If every person were to go to his doctor regularly, once a year, for a health examination, this would allow for the detection of many early cases. This is one of many reasons why the periodic health examination is a good habit that should be cultivated by every one—men as well as women.

Falling the health examination, that brings the woman to the doctor? Symptoms. The early signs and symptoms should therefore prompt every woman to consult her doctor. The early symptoms of cancer are the same as those occurring in other conditions, and the physician will decide as to what the actual condition is.

More than one-third of all cases of cancer in women develop in the uterus. We do not know the cause of cancer, but we do know that chronic irritation predisposes to its occurrence. During childbearing, the uterus to the lower end of the uterus, the cervix, is not uncommon. If such injury is not properly repaired, there is a part subject to chronic irritation which apparently predisposes to cancer, as it is in the cervix.

The attention of women is frequently and rightly drawn to the need and value of pre-natal care. We would like to add that post-natal care is about the best form of life insurance for any woman. If post-natal care, we mean proper medical and nursing care after the birth of the child, and, as a part of this care, an examination by the physician, after a period of some weeks, to determine if all the parts are normal or if any treatment is indicated.

Proper post-natal care and prompt attention to any discharge or irregular bleeding, particularly after the first month on or discharge from the breast, there would be a different story to tell about cancer. Early treatment of cancer is successful in a large percentage of cases. The real problem rests with the patient.

Questions concerning health, addressed to the Canadian Medical Association, 154 College Street, Toronto, will be answered personally by letter.

## LOW-PRICED CARS HAVE MANY ACCESSORIES

One of the remarkable contributions of volume manufacturing to the automobile purchaser has been in bringing features once exclusive to the costlier cars into the low priced field. In the Chevrolet Six, for instance, the equipment includes forming cushions, robe rail, foot rest and ash tray, arm rest, silk assist, cord high lustre window curtains and period hardware — accessories undreamed of as standard equipment in the low price field until the past few years.

## HEALTH OFFICER WILL LECTURE ON SEX HYGIENE

Dr. Owen of the Provincial Department of Health will lecture on "Sex Hygiene" at the Women's Institute and all other women's organizations interested on "Sex Hygiene." The lecture will be held in the Old Fellows' Hall on Saturday, January 15th, at 8 p.m. ladies are cordially invited to attend.

# MODERATION or PROHIBITION ?

The Moderation League of Alberta, an Incorporated body by Act of the Provincial Legislature, claims that moderation is the only safe solution to the liquor problem; and further claims that moderation is exemplified in the present Liquor Control Act of Alberta, which takes nothing from the right and freedom of the people, preserve: the dignity and respect of the laws of the country, and protects the weak from their own folly.

A son was born to Mr. and Mrs. Fritz Carleton on Wednesday, Jan. 7, at the Bassano Hospital.

Mrs. H. Haynes left last Saturday for Hylle, northern Alberta, to visit with Mr. and Mrs. Marian Haynes.

Mr. and Mrs. H. Beecher and baby girl are spending a vacation in Vancouver.

Leo Newby is taking his holidays, and has left on a trip to Winnipeg.

Mr. and Mrs. W. King, of Redcliff, were visiting in Bassano last Saturday.

Mrs. Cummer, of Calgary, is the guest of her daughter, Mrs. Jan Johnston.

R. P. Carrio was a business visitor at Calgary this week.

**Countess**

COUNTRESS, Jan. 5.—The children are having great sport skating these days.

Mr. and Mrs. G. McIntosh were guests at the Gamble home Friday evening.

Chas. Reibel and Sam Henderson of Bessano, spent a couple of days visiting old friends, H. Cowan and J. Snape, last week.

Mr. and Mrs. H. Cowan, Koneta and Alice, were at Maplecove for five days last week.

Royal Burgess had a valuable horse when he was run into by a motor car on the Gem road. The horse had to be shot.

Mr. and Mrs. Jones and Mrs. Evelyn Jones and son Eugene went to Calgary on Tuesday.

Eugene Jones, who is taking an evening course in Calgary, spent the Christmas holidays here with his mother, Mrs. Evelyn Jones.

Mr. and Mrs. J. Newman, Mr. and Mrs. A. M. Anderson, Mrs. Barton, and James Henry spent New Year's day at the Snape home.

Miss Helen Burgess had her guests on New Year's day, Mr. and Mrs. Royal Burrows and children, Mr. and Mrs. E. R. Heist, Fred and May Heist, and Mrs. Harkness.

Miss Ivy Price and Miss Carey Gamble attended the dance at Gem New Year's eve.

The invited guests at the home of Mrs. M. Ferguson on New Year's day were Mr. and Mrs. W. Parrott and son Wallace, G. Parrott, Harry Spence, Carey Gamble, Mrs. Sluss, and Mrs. M. J. Sheffels.

Guests of Mr. and Mrs. Sluss in Watch the old year out and the new year in were Mr. and Mrs. Howard Ferguson and Marjorie, and Mrs. Fred Robinson and Teddy, and Mrs. M. H. Gamble.

Mr. and Mrs. Dale Ferguson and children, Mr. and Mrs. Harkness and son, Mr. and Mrs. Howard Ferguson on New Year's day.

**Rosemary News**

ROSEMARY, Jan. 5.—Mr. and Mrs. Lagimodiere and Joe Chabot spent Sunday afternoon with friends in Patricia.

Bill Tansfield and Bob McClelland motored to Hinton Tuesday.

Miss Yvette Tangay left Tuesday to resume her studies at the R. C. convent in Edmonton.

The teachers are again on duty after their Christmas holidays.

Mr. and Mrs. Wm. Tansfield had the dinner guests Sunday. Mr. and Mrs. R. Estman and family, and J. Norton.

Mr. and Mrs. Jones and Mrs. Harkness motored to Bassano last Saturday.

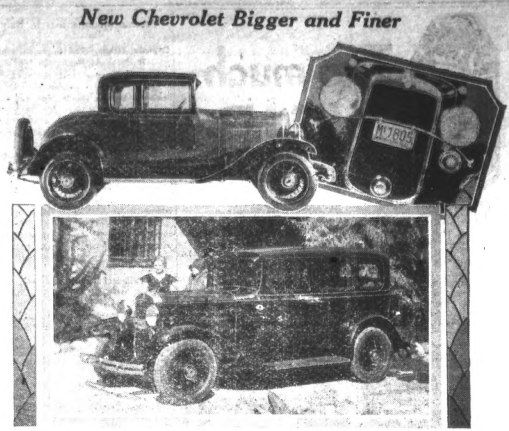

The New Year's dance given last Wednesday night by the Ladies Social Club was quite well attended.

The proceeds were in aid of the Red Cross.

H. Hashman was in the colony this week.

Mr. and Mrs. Noble Tansfield and Mr. and Mrs. R. Norton spent Tuesday evening as supper guests of Mr. and Mrs. Robinson.

The Rosemary Ladies Social Club met at the L. D. S. hall on Saturday, Jan. 3 for the purpose of electing new officers for the year 1931. The new officers are as follows: pres. J. M. McNeil; vice pres. Mrs. T. Perry; sec. Mrs. C. P. Norton. The executive committee was also appointed at this meeting. It was decided that an Executive meeting be held at the home of Mrs. Simmons Tuesday, Jan. 6.

**New Chevrolet Bigger and Finer**

Here is what the new Chevrolet looks like as standard equipment. Upper right shows the first public showings now being held on "hinged front view," the higher radiator, the Canadian There are nine body types, the five chrome-plated which arches between the window coupe at the upper left being an addition headlamp, and the new horn mounted below the line. Below is the standard sedan which left headlamp. Prices of the new Chevrolet are the lowest, roomy effect achieved by the 16-hp. lower than those at which the 1930 models were entering the roadway to 109 inches. Wire wheels introduced.

**HANDSOME 1931 MODELS**

**WHITE POPULAR FOR LICENSE PLATES**

White is the favorite color for the new 1931 auto markers in Canada this year. Six out of the nine provinces are using it, while Ontario and British Columbia are the only provinces to adopt black figures on their license plates. New Brunswick has placed with red letters on a dark blue background. Manitoba is using white figures on a green background. Saskatchewan, while against a purple black ground, and Alberta, white against a light blue background. Quebec and Prince Edward Island have a similar similarity in their markers, with both favoring white figures on a common background. Nova Scotia chooses this year's color scheme of Ontario and has white letters, and figures on a black background.

**AGRI-BUFF STILL GOING STRONG**

A Russian drishky drawn by a pair of shaggy-haired Tartar horses could probably attract no more attention on the streets of the average city than the twenty-cent-old Buick which was exhibited recently at the Centennial celebration in Canton, Missouri. This old car, which was considered a "wonder" model back in 1898, is still in running condition in spite of the 120,000 miles of travel registered on its speedometer. The original paint, upholstery, motor, transmission and other parts, are still giving service.

**CANADIAN SALESMAN WINS CONTEST**

Honor has come to a Canadian in one of the most keenly contested sales competitions staged on the Continent this year. P. B. Gordon of Saskatoon led more than 2,500 salesmen in the continent wide event held by the Spork Plug Company, and was presented with a new Chevrolet as first prize. His history and the sales record that won him the Chevrolet are particularly significant at this time because they prove as he himself declares, that business is good if effort is made to get it.

**LEVERIOUS BUSES BUILT IN CANADA**

Only a few of the many people who have admitted the magnificent new passenger coaches of the Canadian Greyhound Lines, are aware that they are completely built in Canada. These spacious and luxurious buses ply between Niagara Falls and Windsor and were constructed, body and chassis, by the Truck and Coach Division at Walkerville of General Motors Products of Canada, Limited. The Greyhound fleet, in fact, is only one of many that have been wholly built at the new Walkerville body plant which has become a highly important addition to the automotive industry in Canada.

**THE TWELVES AND SIXTEENS ARE ACHIEVING A VOGUE IN THE "EIGHT-PRICED" RANGE. THE SLIGHTS WILL HAVE A DEFINITE GAIN AT THE FORTHCOMING SHOWS IN POINT OF NUMBER OF MODELS AND ALSO IN THE TOTAL PRODUCTION REPRESENTED. IN EVERY PRICE CLASS THE BUYERS WILL GET MORE THEIR MONEY THAN EVER BEFORE. THERE WILL BE A COMPLETENESS OF EQUIPMENT, A LUXURY OF UPPOINTMENT, EVEN IN THE LOWER PRICE RANGES, WHICH WOULD LEAVE THE BUYERS OF TEN YEARS AGO GASPING WITH ASTONISHMENT.**

**In The Automotive World**

**SHOWS REVEAL MANY BIG CARS**

When the National Automobile Show in New York and the Canadian Show in Montreal open their doors in less than a month, a number of new developments will be found on display. These will be interesting in themselves but far more significant in the ultimate development they suggest to students of automotive evolution. This shows will feature at least four sixteen-cylinder engines and several twelve. There will be an increased number of eight-cylinder "power" and the usual showing of stars in the four will probably be limited to a single representative. This development of multi-cylinder lower plants suggests the probability of a greater differentiation than ever between the medium price and upper-luxury field. It would appear that this former class, providing transportation for people who do not have to consider the price, is going in heavily for multi-cylinder

**DEVICE STOPS CAR WHEN BUMPER STRIKES OBJECT**

An electro-mechanical device known as the "Bum Guard", designed to stop an automobile in much less time and space than would be required by a human operator, was successfully demonstrated recently.

The device consists, essentially, of a powerful coil spring in a cylinder which is attached under a car and connected by wire with the front bumper and a button on the dash. A slight pressure on the bumper, or the button, closes an electric circuit which releases the spring. The ignition is immediately cut off and the brakes are applied. Pressure on either the bumper or the button will stop a car in approximately one-fifth of the distance required in ordinary breaking.

**ON WHEELS**

The motor car has revolutionized transportation methods, and the world now travels on rubber wheels.

In western Canada the motor car is now an all-year-round necessity—winter as well as summer. This continual use demands much from a car. It requires care and attention if the owner is to derive satisfaction and avoid expensive repair bills.

We make a business of servicing cars—supplying them with good oil, water for the battery, frost cap, greasing, tire repairs, adjustments.

This is what keeps a car in good running order and thus avoids costly repair bills. See us for this service. Our customers get prompt and courteous attention.

**Bassano Service Station**

**An Aid to the Income**

Farmers who milk cows and sell cream find the cream cheque a great help in paying their monthly expenses. It brings ready cash all the year round, and is a never-failing source of revenue.

We pay market prices for cream, and our customers doubt or dissatisfaction we are always pleased to talk it over and explain our methods which comply with government regulations.

are given honest test and weight. Whenever there is

**BASSANO CREAMERY**

## Too much

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillip's Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms, such as heartburn, gas, heartburn, etc., will disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine, prescribed by doctors for conditions due to excess acid. It is always a liquid; it cannot be made in tablet form. Look for the name Phillip's and the word genuine in red.

## WORLD HAPPENINGS BRIEFLY TOLD

The first month's operations in the Alberta government's new department of lands and mines yielded a total revenue of \$158,000.

Alarm over the continued depletion of the halibut resources of the north Pacific is expressed in the seventh report of the International Fisheries Commission.

Tax on gasoline brought the province of Ontario \$10,766,000 for the year ending October 31st, according to the department of highways' figures show.

The British museum announces discovery by its own and the University of Pennsylvania's expedition, four of the great grizzlies of the third dynasty, dating about 2400 B.C.

Cigarette consumption in Germany amounts to \$2,800,000 yearly or about 500 to each inhabitant, while consumption of cigars reaches about 100 per person.

The recent visit of the Canadian trade delegation to the Orient was an immeasurable stimulus to trade relations, and should increase materially the imports and exports of China and Japan, according to G. I. Barr, general agent of the Canadian National Railways at Shanghai.

Among the Christmas gifts received by the Pope was an apparatus for recording electricity, by Thomas Edison. The apparatus was presented by the inventor, whom he also awarded the annual Pappal medal in gold.

A trans-Atlantic telephone service is now available between the British Isles and all parts of Canada and Mexico. Hereafter the service extended only to the principal cities of those two countries. With the new equipment, the service will connect England to all parts of North America, including Cuba.

## B.C. Police Use Radio

System Covers Territory From Alaska To International Boundary

Getting your mail by radio is the new method used effectively on the British Columbia coast by the provincial police. Operating on the most complete and successful short-wave wireless chains on the continent, the British Columbia police radio system has handled 3,600 messages, containing 180,000 words, at its seven stations in the first year of operation. Many smart captures are credited to the system, which keeps the headquarters in Victoria in touch with its far flung posts from the Yukon to the international boundary.

**Ship-To-Shore 'Phones Busy**  
The novelty of carrying messages on shore has been a happy one for fishermen off the Welsh coast since the installation recently of the ship-to-shore telephones at Cardiff and Swansea. They have kept the lines busy in calling friends. The service also covers vessels in dock, and enables a caller to telephone local owners, brokers or relatives at home for a total charge of 80 cents a day.

Misery loves company, but it is better to have rheumatism in one leg than in both.

Price 50c a box

Sold at all drug and grocery stores, or mailed direct on receipt of price by The M. Milburn Co., Ltd., Toronto, Ont.

## Heart and Nerves So Bad Was Unable to Sleep For Hours

Miss Theresa M. Ravary, Gallatin, Mont., writes: "I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and often dizzy and nervous. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could sleep at night and my nerves were in my former state of health."

## Veteran Mountie Dies In Italy

Captain Deane, was Superintendent of Force At Regina, 1895. Soldier, author and Royal North West Mounted policeman, Capt. Richard Burton Deane, age 82, who served with R.N.W.M.P. for 33 years and was superintendent of the force at Regina in 1894, died at "Diano Marina, Italy, on December 13. Captain Deane, retired from the force in 1913 after writing a history of the R.N.W.M.P., and moved to England. Owing to bad health condition, he later moved to Italy, where he lived until his death.

Born in India, Captain Deane went to England at the age of four years and was educated there, completing his education at the military college at Sandhurst. He joined the Royal Marines, was assigned to H.M.S. Warrior, on which he served for two years. After seeing service along the Gold Coast and other foreign waters for several years, he retired and came to Canada in 1882 with the idea of taking a commission in some Canadian regiment.

A year later he was appointed an Inspector for the R.N.W.M.P. and in 1884 was appointed superintendent of the force and transferred to Regina. He later served at Calgary, Maple Creek and Lethbridge during times of trouble.

Among his honors won by Captain Deane during his long service are those gained during the Rebel rebellion and the coal mine lockout at Lethbridge in 1885, he had charge of 800 and about 500 half-breed prisoners. In the Lethbridge lockout he brought the strike, which threatened mutiny, to a sudden close.

Among his published works was the first manual of the mounted police, which he wrote while he was in the force. He was also an Inspector, and a history of the force.

## Will Treble Advertising

Cereal Firm Realizes Big Percentage Of People Able To Buy

A concern that sells cereal foods in packages announces that it will meet the challenge of depression by trebling its newspaper advertising during the coming year. It is confident that this expenditure will result in sales sufficient to show an increase in business in 1931.

The reason followed by the heads of this cereal concern is sound. While there is much unemployment and reduction of revenue the great percentage of people on this continent are still in a position to purchase cereal foods for their requirements and to so conduct their affairs that the business community will enjoy a profit from its services.

But many firms are unable to see the situation in that light. When their sales recede they are inclined to become fatalistic, make little effort to battle against adverse conditions. If they would balance up the figures of unemployed against those representing the employed they would find that there is still sufficient property in the community to keep their business successful if they will give the public an incentive to buy by relating an interesting story of what they have to sell.

News advertising is still the most effective stimulus for business. Its judicious use is the most complete means to attract the buying public. If the merchandise is right and is offered at reasonable prices there is still excellent buying power in the community.

It is not good procedure to let the steam pressure fall when the temperature is low. That is when the extra force is needed. Just so the merchant can attract trade in dull times by keeping his public better informed on what he has to sell.

## And It Pays

Highest advertising rate of any periodical in the country is charged by Ladies' Home Journal, which is \$5,000 for a full page. Woman's Home Companion rate is \$3,840; Delectable, \$3,200; Pictorial, Revue and McCall's Magazine, \$3,840 each; Saturday Evening Post, which has largest circulation, \$5,000; others, \$2,500; True Story, \$4,000; and Liberty, \$4,250.

## Seeks Naturalization

Hamilton, Ont.—After reading in Canada for 75 years, John Henry Rague, a native of Germany, filed application for naturalization papers and Judge Thompson has favorably reported on his case to Ottawa officials. Rague came to Canada in 1850.

## Estimated Wealth Of Prairies

The total estimated wealth of the Prairie Provinces is \$7,800,000,000, according to a statistical analysis published by the Industrial Development Board of Manitoba. This is 25.51 per cent. of the Canadian total.

## W. N. U. 1871

## Honor C.P.R. Official

Police and Fire Chiefs' Club of the Montreal district held recently A. Hector Cadeau, assistant chief of the investigation department, Canadian Pacific Railway, was elected president for the ensuing year. The election demonstrates the close and harmonious relation between C.P.R. police and the city force for the protection of life and property in the metropolis of Canada. A week later Mr. Cadeau presided at the fifth annual banquet of police and fire chiefs held at the Place Viger Hotel at which His Honor Camille Houde, Mayor of Montreal, was the guest of honor.

## Will Explore Jungles Of Brazil

Expedition From New York City Is Bound For The River Of Doubt Country

Twelve men and twelve dogs have sailed on the "Western World" for Montevideo, Uruguay, whence they will start a year's trek up into Brazil's great jungle, the Mato Grosso.

They are bound for the "River of Doubt" country made famous by the late Col. Theodore Roosevelt to make sound movies of jungle noises and to capture animals, armadillos, taptis, jaguars, ant-eaters, birds, mammals and fish of varieties little known in the rest of the world.

They will try also to bring back some live specimens of the animals, a fish about a foot long that has an appetite for human flesh and jaws so strong and with teeth so sharp that the natives dry them and use them for hair clippers.

The dogs have been trained in Arizona to chase nothing but members of the cat family—mountain lions, jaguars etc.—and to keep a safe distance until the prey is tired. Capt. Vladimir Purtiloff, and his explorer, is head of the expedition, which is made up of scientists and big game hunters.

## New Noises Worse Than Old

Automobile Noise Is Only One Of The Modern Nuisances

The older generation remembers, perhaps not unpleasantly because of the charm the distant past throws over those memories, the noises of the city before the days of street-travelled vehicles. There were the street-cars, innocent of all ball bearings, rattling noisily, the roar of the tramroad when the obstacles were passed, and the steady pounding of the horses' iron-shod feet.

Now the change has come over the cities. Noise is largely of other varieties. Iron tires have given place to rubber tires, the automobile sits silently along, or should do so over smooth pavements of asphalt.

But new noises have appeared. These are from the horns of the motorists, or from the exhausts of their engines. Mufflers have been provided for the latter, but the horn nuisance persists. This would seem to be largely unnecessary noise. The driver who attempts to move the traffic by his horn, where his horn has been a nuisance, is a nuisance.

An English student of city noise suggests that as there is a limit to the amount of space a man or vehicle may claim in a city street, so there is a limit to the amount of noise he is entitled to raise in a city where the inhabitants have certain rights in the circumambient atmosphere and its disturbance. They are "noise" laws, "noise" laws, the unnecessary atmospheric annoyance, but one cannot turn to the street noises that annoy and disturb.

"Polluting the unnecessary noise of a city is a far more difficult problem than that of polluting its smoke, which has been found difficult enough. A householder may no longer throw his garbage out into the street, or pile it in his yard to disturb a neighborhood with offensive odor. So far we have come. But he may still emit a large amount of unnecessary noise out upon a neighbor's hood with his automobile horn or by his futile midnight efforts to start an unwell car.

This must be one of the problems of the future that we read of, namely, policing the city's unnecessary noise, and it is a problem of the countryside as well. We cannot disturb our neighbors' atmosphere with vile smells without getting into trouble. Why have not the neighbors an equal right to their atmosphere, undisturbed, by hideous and unnecessary noise?

Canada's Mineral Resources

At the opening of this century, gold and coal were the only two large items of Canada's mineral production. Today the Dominion mining industry owes its magnitude not only to coal and gold, but to copper, nickel, lead, silver, zinc, asbestos, and, in short, to some of the widest variety of resources as any country affords to mining enterprise.

## To Solve Origin Of Human Race

British Scientist Goes To Africa To Discover People Of Real Race

Dr. Arthur Huxley, of London, England, a follower of the Royal Society, is a follower of the theory of Great Britain, has announced plans for an expedition to Africa to determine the origin of the race. "We will try to reach a people of the African race who have never been mixed with the white race," he said. "My interest first was aroused when I encountered some of these peculiar people in Nigeria in 1924."

"I tried at that time to reach Lake Chad but was forced to turn back when advised by my party that it was a desert of desert nomads. I was halted again in 1926 by desert storms."

"It is my belief that the original human being was a person of dual sex. The influence of climate, the need for a living and the need of looking after children, to my point of view, caused the division of the first human beings into two classes: the hunter and the gatherer."

"The influence of climate, the need for a living and the need of looking after children, to my point of view, caused the division of the first human beings into two classes: the hunter and the gatherer."

### BANK MANAGER IN

MOVED TO CHRONICLE

C. H. McMillan, local manager of the Canadian Bank of Commerce, has been transferred to Crowfield and takes over the management of the company's branch bank there. Mr. McMillan left on Tuesday for his new post.

During his residence of two years in Bassano Mr. McMillan has been active in board of trade work, ice cutting, and in golf. He rendered valuable service as secretary-treasurer and as president of the board of trade, filling the latter position during 1929.

Mr. and Mrs. McMillan leave many friends in Bassano who regret their going.

The newly appointed manager of the Bassano branch is A. W. Gill, of Redwood.

### Lathom News

LATHOM, Jan. 7.—Miss Marjorie Hardy returned Sunday evening to carry on her duties here.

Mrs. Taitson gave a dinner party for a number of her friends last Monday.

The club will have its first meeting of the new year at the home of Mrs. A. Smith.

The Castle-Lathom hockey game was a very exciting affair, the score being 4-3 in favor of Castles. The Lathom boys gave a dance in the evening for the Castles players. Everybody had a wonderful time.

Owing to the mine being closed for the holiday, Jim Hattie spent the week with his family.

There was a surprise party at the Taitson home Monday, Dec. 29, the same jolly crowd being present.

Miss Evelyn Ross visited in Cluny this week.

Don't forget the dance on Friday, Jan. 9, given by the Ladies' Community Club.

LATHOM FARMER SOLD ONLY A FEW HOGS

In the Lathom news of last week's issue there was an announcement that A. Freeman had shipped a carload of hogs. This was not correct. Mr. Freeman did sell some hogs, but not a carload—only twenty head.

GETS LARGE EGG

G. B. Warren, Bassano A. P. elevator agent and poultry fancier, has a White Leghorn that laid a very large egg this week. The egg was laid on Monday, Jan. 5. It weighed 4 ounces, and measures 8 inches in circumference one way and 6 1/2 inches the other.

Mr. Warren says it is as large as any egg of which he can find record.

A son was born to Mr. and Mrs. J. O. Hansen, of Majorville, on Jan. 3, at the Bassano Hospital.

REV. F. B. B. LEACROFT

DIES IN VANCOUVER

(The Calgary Herald)

Rev. F. B. B. Leacroft, well known in Calgary, died in Victoria hospital on New Year's eve, as the result of an accident on Christmas eve, when he was knocked down by an automobile and had both legs fractured.

He was at one time rector of St. Michael and All Angels' church, on the North Hill, and also had charge of St. Gabriel's church, Tuxedo Park. Mrs. Leacroft, predecessor high some years ago after a long illness. Both his sons went overseas in the great war and the younger was killed. The other son returned to Calgary and unfortunately was blinded in both eyes by an explosion some months ago. He was living with his father in Victoria at the time of the accident which resulted in the latter's death.

The late Rev. Mr. Leacroft was rector of the Anglican Church in Bassano for about two and a half years. He left Bassano during 1927 and at that time his health was poor. He died at the age of 67.

Thankful for Small Favours

"These cheer-up guys tell us to be contented with our lot."

"Well?"

"Even when it isn't a lot."

Sliver of the Old Man

Pat Man (fondling baby): "What do you think of my son, Jim?"

Jim (surveying father): "Well, I'd say he was a slave of the old barrel."

KNOX PRESBYTERIAN CHURCH

Rev. P. C. McCrae, minister

Sunday, January 11th, 1931

11 a.m.—Sunday School.

7:30 p.m.—Evening Worship; subject, "The Man Who Sings at His Work."

Come and enjoy a message of hope and cheer.

Everybody Welcome

**For 3 Days More Only**

Friday, Saturday, and Monday, 11, 12, and 14, January  
**Drastic Clearing Reductions on All Fancy Goods and Toys.**

We have considerable stock left over and we are adopting this plan to help reduce the quantity on hand. We do not want to carry over any more than possible. This means quite a loss to us, but we feel that it is our best policy.

**We offer Toys at 50 cents on the dollar  
This means HALF PRICE**

**25 per cent reduction on all Fancy Goods in our Ladies' Wear Store and Men's Wear Store**

All goods displayed on tables. This practically means all goods as mentioned in our last two series of circulars. As an example—Men's Silk Mufflers selling at \$2.00, you can procure for \$1.50—one-quarter off.
